ISATIS INVESTMENT - MEXICO MITLA EQUITY FUND, class B (LU1725325275)

a sub-fund of ISATIS INVESTMENT

Management Company: Fuchs Asset Management S.A.

Objectives and investment policy

Objectives

The main objective of the sub-fund is to generate long-term capital appreciation by investing primarily in securities issued by Mexican growth companies.

Investment policy

The sub-fund shall invest at least 80% of its net assets in:

- shares and/or instruments linked to shares issued in Mexican companies;
- debt securities of Mexican issuers.

The sub-fund may invest up to 20% of its net assets in:

- shares of other Latin American companies;
- investment funds.

The sub-fund shall not invest:

- more than 25% of its net assets in shares from the same sector;
- more than 10% of its net assets in less liquid shares issued by small-cap companies;
- more than 10% of its net assets in UCITS and other UCIs. These invest-

ments shall not represent more than 5% of the total net assets of these UCITS or UCIs in cases where, following the investment, the sub-fund holds more than 3% of the voting shares of these UCITS or UCIs.

The sub-fund may invest in derivative products and instruments for hedging purposes or to optimise portfolio performance.

The sub-fund shall not lend cash to other parties or entities.

The portfolio is actively managed on a discretionary basis without using a reference benchmark.

The currency of the share class is expressed in USD.

The investor has the right to redeem their shares upon request. Redemptions take place every Friday or, if this is a bank holiday in Luxembourg and Mexico, on the next banking day in Luxembourg and Mexico, as well as on the last full banking day of the month in Luxembourg and Mexico. Investors should take note that in exceptional circumstances, they may only have a limited possibility to request a redemption, or this possibility may be suspended.

These shares are capitalisation shares. Income and capital gains are reinvested.

Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 3 - 5 years.

Risk and reward profile

What does this synthetic indicator mean?

- The shares of class B are classified in category 6 because the value of the share may be subject to high variations and consequently the risk of loss and the opportunity of gain may be high.
- The risk category has been determined on the basis of historical and simulated data and may not be a reliable indication of the future risk profile. The risk and reward category shown does not necessarily remain unchanged and the categorisation of the fund may shift over time.
- The lowest category does not mean a risk-free investment.
- Repayment of the initial investment is not guaranteed.

Which materially relevant risks are not adequately captured by the synthetic indicator?

- The investment in shares bears an issuer risk insofar as the issuing company might go bankrupt. This may result in significant or even total losses of the value of the investments in these instruments.
- The investment in underlying funds implies that the sub-fund is exposed to 1) the investment risks borne by the underlying funds, 2) the risk of increases in the level of charges borne by the underlying funds and 3) the risk that the underlying funds limit or suspend the right for their investors to redeem.
- Derivative financial instruments will be used to reduce currency risks; however, such risks cannot be completely eliminated.
- Other risk factors, that an investor shall take into account with regards to his own situation and specific current and future circumstances, may exist.

How can I get more information about the risks of the sub-fund?

Additional information concerning the risks of investment in the sub-fund is indicated in the corresponding section of the prospectus of the fund which is available at the Management Company and on the website www.fuchsgroup.com.
